SUMMARY DESCRIPTION OF BUSINESS

What is our business?

Halcones is a Canadian junior exploration company focused on identifying and advancing high-quality mineral assets in premier mining jurisdictions. The Company’s focus is exploring the Polaris Gold Project (the “**Project**” or “**Polaris**”) in Chile’s Antofagasta Region. Spanning 5,778 hectares, the Polaris Project hosts significant potential for gold mineralization, as identified through extensive surface sampling and geological mapping.

Recent developments

On February 12, 2025, the Company announced additional outcrop chip channel sample results extending mineralized footprint to the south of the Project. Select highlights from the last batch of 44 assays included 29.04, 10.67 and 3.54 g/t Au, hosted primarily in stockwork.

On February 5, 2025, the Company announced surface outcrop chip channel sample results from its first field program completed at the Project, which comprised of mapping and continuous 1m long chip sampling in a portion of the Project area. Select highlights from this program included 20.05 g/t, 13.08 g/t, 8.54 g/t and 6.67 g/t gold from the Company’s field work. Sampling by the Company’s geologists returned values consistent with work done by the optionors of the Project and extended the known area of high-grade mineralization to more than double that previously outlined. The approximate surface area of this target containing multiple surface samples above 1 g/t is 12.3 hectares.

On January 30, 2025, the Company closed the transaction to acquire the Project from Austral Exploraciones SpA (“**Austral**”). Pursuant to this closing, the Company issued 15 million Common Shares to Austral and paid USD\$100,000 in cash to Austral in exchange for an option to acquire a 100% interest in the Project.

On October 28, 2024, the Company announced that it has entered into binding agreements to acquire a 100% interest in the Project from Austral.

On August 26, 2024, the Company closed its previously announced non-brokered private placement financing, on an oversubscribed basis, of 21,200,000 units priced at \$0.05 per unit for gross proceeds of \$1,060,000 (the “**August Private Placement**”). Each unit was comprised of one Common Share and one-half of one Common Share purchase warrant. Each such warrant entitles the holder to purchase one Common Share at an exercise price of \$0.10 per Common Share for a period of 36 months following the completion of the August Private Placement.

On April 9, 2024, the Company announced that it has withdrawn from its option to acquire the Carachapampa project in Chile pursuant to the terms of the Carachapampa option agreement (“**Carachapampa**”).

On January 24, 2024, the Company announced results from its drilling campaign and overall 2023 results

regarding Carachapampa.

Material facts

There are no material facts about the securities being distributed that have not been disclosed in this Offering Document or in any other document filed by the Company in the 12 months preceding the date of this Offering Document.

What are the business objectives that we expect to accomplish using the available funds?

The Company intends to use the net funds from the Offering for exploration of the Project and working capital. With the anticipated maximum funding, the Company's priorities are to:

- Complete a minimum of 2,000 meters of drilling on the Project. Additional drilling will be dependent on results. Management estimates a total of 4000m will be completed dependent on the initial results. The cost to complete this drilling is estimated to be approximately \$1,750,000.
- Continue surface sampling, mapping and geophysical evaluation of the broader Project area. The estimated cost of the evaluation work is approximately \$225,000.
- Provide \$223,357 for working capital, general and administrative and contingency.

USE OF AVAILABLE FUNDS

What will our available funds be upon the closing of the Offering?

Based on the Company's existing working capital of (\$17,043), the expected availability of funds is \$2,198,357 in the case of the maximum offering. See the "Fees and Commissions" section below.

		Assuming Maximum Offering
A	Amount to be raised by this Offering	\$2,500,400
B	Selling commissions and fees	\$175,000
C	Estimated Offering costs (e.g., legal, accounting, audit)	\$110,000

E	Working capital as at most recent month end (deficiency)	(\$17,043)
F	Additional sources of funding	\$0
G	Total available funds: $G = D+E+F$	\$2,198,357

How will we use the available funds?

Description of intended use of available funds listed in order of priority	Assuming 100% of Offering
Commence initial exploration drilling at Polaris of 2000-4000m dependent on results	\$1,750,000
Complete additional surface sampling mapping and geophysics	\$225,000
Working capital, general and administrative and contingency	\$223,357
Total	\$2,198,357

The above noted allocation of capital and anticipated timing represents the Company’s current intentions based upon its present plans and business condition, which could change in the future as its plans and business conditions evolve. Although the Company intends to expend the proceeds from the Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Company’s ability to execute on its business plan. See the “*Cautionary Statement Regarding Forward-Looking Information*” section above.

The most recent unaudited interim financial statements of the Company for the three and nine months ended September 30, 2024 and 2023, included a going-concern note. The Company is focused on mining and further developing its mineral properties and has not yet generated sustained positive cash flows from its operating activities, which may cast doubt on the Company’s ability to continue as a going concern. The Offering is intended to permit the Company to continue to achieve its business objectives and is not expected to affect the decision to include a going concern note in the next annual financial statements of the Company.

How have we used the other funds we have raised in the past 12 months?

On August 26, 2024, the Company completed a non-brokered private placement financing of 21,200,000 units priced at \$0.05 per unit for gross proceeds of \$1,060,000. The Company used the net proceeds of this private placement to: (i) complete due diligence on mineral projects for potential acquisition, including the Project; (ii) transactional costs related to acquisition of an option to acquire the Project; (iii) exploration work on the Project; and (iv) general and administrative costs.
